At Ickworth Park Primary School, we passionately believe in developing the whole child, through high quality teaching and learning.

We believe the direction of the curriculum should be driven by the child's interests, encouraging self-expression, communication and problem-solving.

We invest time in getting to know every child to create a purposeful, challenging and inspiring curriculum for all.

Our school day starts at 8.50 with self-registration and C.O.O.L time (choosing our own learning). During the morning, we enjoy snack time, giving every child the opportunity to share their experiences, learning or news with their peers. We embrace our much-loved outdoor area in all weathers throughout the day. In the afternoon, we share another snack time where stories are shared before home time at 3.20.

We have a diverse and engaging curriculum, running whole class phonics sessions daily, as well as having Maths, PE, PSHE, RE and Music lessons throughout the week. Furthermore, we make regular visits to the school library and run three reading group sessions weekly, that follow the Little Wandle programme.

We are host to a large and lovely school field that provides ample space for games and sporting activities, run by our regularly visiting Sports Coach. Throughout the year, we take various class trips, including the pantomime, the zoo, the local Ickworth Park, as well as the Suffolk mobile library bus.
